Engineered & Manufactured by Sprung Instant Structures

**Riot Whinstone  
Rockdale, Texas  
Two - 100' wide x 810' long**

Inside each football-field-length warehouse are thousands of computers buzzing like worker bees, mining almost nonstop to create Bitcoin. Riot Whinstone is an unusually large mining facility in Rockdale, Texas, just an hour northeast of Austin.

Riot Blockchain is focused on supporting the Bitcoin ecosystem through proof-of-work mining. Riot continues to build on the progress made towards its 400 MW expansion project. Riot's immersion-cooled Bitcoin mining progress includes Building F and Building G, the first erected immersion-cooled dedicated building, now with over 10,000 S19j Pros deployed.
