Engineered & Manufactured by Sprung Instant Structures

Horseshoe Casino
Bossier City, Louisiana
110' wide x 170' long Sprung Structure

The Riverdome at Horseshoe is the premier Bossier City concert venue. Originally erected in 1998, this "Riverdome" facility holds around 2000 seats for concerts. Casino guests are entertained in the Sprung structure by many country/ western and pop music performers as well as comedians. Past concerts have included musical luminaries such as Kenny Rogers, Smokey Robinson, B.B. King and comedians such as Ron White, Kathy Griffin, and Bill Engvall. The structure inside accommodates many lighting trusses and light bars as well as a catwalk that hangs directly off the structure.

Rollerdrome - Concert and Entertainment
Petropavlovsk-Kamchatskiy, Russia
39.6m x 91m fully insulated

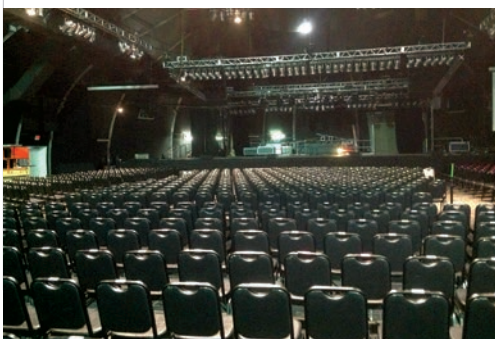

This 2,400 seat concert hall has presented a number of well-known musical acts, from Boney M to C.C. Catch, Modern Talking, Gale Force Dance, Secret Service and several popular Russian acts. The venue has also hosted the official 270 anniversary celebration of Petropavlovsk-Kamchatskiy. The acoustics inside the 'soft wall' insulated structure are much better than conventional concrete and steel buildings, making the Rollerdrome complex a popular venue for music and entertainment.

Warren Station at Keystone
Keystone, Colorado

Nestled at the base of beautiful Keystone Mountain, the new Warren Station at Keystone is a 8,000 square foot community performing arts venue dedicated to providing the guests and residents of the Snake River Valley with year-round entertainment.

Warren Station at Keystone is a multiuse community facility with flexible general seating situated along the North Fork of the Snake River. The new facility features lush landscaping and foliage (seasonal), an expansive outdoor patio with an adjacent rustic fire pit surrounded by flourishing greenery (seasonal), and prime viewing the adjacent Quaking Aspen Amphitheater.
