Church

A Faster Way to Build
Engineered & Manufactured by Sprung Instant Structures

“Innovative, Highly-Creative, Kingdom-Focused Building. The Sprung Team gave us a permanent facility that exceeded our expectations and allowed us to invest in ministry not mortgages. This facility is state of the art, half the cost of traditional construction and 3x’s faster to build.”

Dr. Brett C. Avery, Executive Pastor
NEW LIFE CHRISTIAN CENTER
Turlock, CA

“Most people talk about the cost of their building. We have experienced the ‘Value’ of our decision to build a Sprung structure. People experience the ‘WOW’ factor the moment they walk in the building. We have an impressive, unique space that is conducive to worship and flexible enough to be used for recreation.”

Church Administrator Reid Stringer
NORTHWOODS BAPTIST CHURCH
Tallahassee, Florida

“The Sprung structures at Saddleback Church continue to be valuable tools towards the growth of the church. We put great value on flexibility in our facilities and Sprung structures provide the kind of flexibility a growing church needs. They go up quickly which allows us to respond to growth spurts and they are easily reconfigured to meet our changing needs.”

SADDLEBACK CHURCH
Lake Forest, California

“I have found that there is a big difference between low-cost and high-value when it comes to construction. We considered the various options available to our church and decided that a Sprung structure gave us a greater value hands down. We liked the fact that it did not look like a warehouse and that it was a building that could adapt to our current and future needs.

Unlike metal buildings the acoustics are great without having to invest in a great deal of extra insulation and sound deadening panels. The actual construction time was just over a week which allowed us to build it ourselves instead of having to hire laborers. It has been over a year now and we are more convinced than ever that we made the right choice. Easy construction, low cost, great flexibility, on going low maintenance, and a building that looks great. Now that’s value.”

Reverend Kenneth Brown
FAYETTEVILLE ALLIANCE CHURCH
Fayetteville, North Carolina

“We do a lot of live music during our services, and acoustically this building is a music lover’s dream.”

Pastor Tracy Hamilton
TRI-COUNTY WORSHIP CENTER
Seneca, South Carolina

“We have grown by 50% in the first nine months. Our monthly utilities average only \$255.00. Sprung turned our dream into a reality.”

Dr. Lawton Searcy
DAYSPRING CHURCH
Baton Rouge, Louisiana

“If you are looking for a smart solution to a space need that will optimize your dollars and maximize your ministry, I do not think that you will find a better option than a Sprung Structure.”

Pastor Jack Hilligoss
HIGHPOINT CHURCH
Lake Wales, Florida

“It’s been 4 years, and the wow factor has not stopped. Everyone who sees it for the first time cannot believe what’s inside. It is much more than we thought it would be.”

Pastor Mark Riley
FLEMINGTON FIRST CHURCH OF CHRIST
Flemington, Pennsylvania

“This building has been such a blessing. Our utility costs have reduced by over 50% which significantly helps our budget.”

Caren Apple, Administrator
BETHEL WORSHIP CENTER
Cartersville, GA

“The amount of square footage we received for the price could not be matched anywhere. The open feeling inside and the incredible acoustics make it all the better, and the unique look attracts students like a magnet. It has been ideal for us. I’d build another one here in a heartbeat.”

Lance Taylor
LONG HOLLOW BAPTIST CHURCH
Hendersonville, Tennessee
