

# Church Buildings

We believe every church should have the opportunity to build.

Outreach centers

Large, clear-span worship areas

Youth centers

Spacious gathering places

High-performance insulation packages

Spacious gathering places

Cost-effective, rapidly built and highly durable, a Sprung structure redefines what's possible when it comes to building new church facilities or expanding existing ones.

# Church Buildings

## Discover what satisfied worship leaders and congregants have to say about their Sprung church structures.

“An innovative, highly creative, kingdom-focused building. The Sprung team gave us a permanent facility that exceeded our expectations and allowed us to invest in ministry, not mortgages. This facility is state-of-the-art, half the cost of traditional construction and three times faster to build.”

Dr. Brett C. Avery, Executive Pastor  
New Life Christian Center  
Turlock, CA

“Most people talk about the cost of their building. We have experienced the value of our decision to build a Sprung structure. People experience the wow-factor the moment they walk into the building. We have an impressive, unique space that is conducive to worship and flexible enough to be used for recreation.”

Reid Stringer, Church Administrator  
Northwoods Church  
Tallahassee, Florida

“The Sprung structures at Saddleback Church continue to be valuable tools towards the growth of the church. We put great value on flexibility in our facilities, and Sprung structures provide the kind of flexibility a growing church needs. They go up quickly, which allows us to respond to growth spurts, and they are easily reconfigured to meet our changing needs.”

Saddleback Church,  
Lake Forest, California

“I have found there is a big difference between low-cost and high-value when it comes to construction. We considered the various options available to our church and decided that a Sprung structure gave us greater value, hands down. We liked the fact that it did not look like a warehouse, and that it was a building that could adapt to our current and future needs.”

Unlike metal buildings, the acoustics are great without having to invest in extra insulation and sound-deadening panels. The actual construction time was just over a week, which allowed us to build it ourselves instead of having to hire laborers. It has been over a year now and we are more convinced than ever that we made the right choice. Easy construction, low cost, great flexibility, ongoing low maintenance, and a building that looks great. Now that's value.”

Reverend Kenneth Brown  
Fayetteville Alliance Church  
Fayetteville, North Carolina

“We do a lot of live music during our services, and acoustically, this building is a music lover's dream.”

Pastor Tracy Hamilton  
Tri-county Worship Center  
Seneca, South Carolina

“We have grown by 50% in the first nine months. Our monthly utilities average only \$255.00. Sprung turned our dream into a reality.”

Dr. Lawton Searcy  
Dayspring Church  
Baton Rouge, Louisiana

“If you're looking for a smart solution to a space need that will optimize your dollars and maximize your ministry, I don't think you'll find a better option than a Sprung structure.”

Pastor Jack Hilligoss  
Highpoint Church  
Lake Wales, Florida

“It's been four years and the wow factor hasn't stopped. Everyone who sees the structure for the first time cannot believe what's inside. It's much more than we thought it would be.”

Pastor Mark Riley  
Flemington First Church of Christ  
Flemington, Pennsylvania

“This building has been such a blessing. Our utility costs have reduced by over 50%, which significantly helps our budget.”

Caren Apple, Administrator  
Bethel Worship Center  
Cartersville, GA

“The amount of square footage we received for the price could not be matched anywhere. The open feeling inside and the incredible acoustics make it all the better, and the unique look attracts students like a magnet. It has been ideal for us. I'd build another one here in a heartbeat.”

Lance Taylor  
Long Hollow Baptist Church  
Hendersonville, Tennessee
