Engineered & Manufactured by Sprung Structures

**Horseshoe Casino**  
**Bossier City, Louisiana**  
**110' wide x 170' long**

Originally constructed in 1998, the Riverdome at Horseshoe Hotel and Casino remains a premier performance venue in Bossier City. Highly durable and fully insulated, the 110' x 172' Sprung structure seats around 2,000 people and features a clear-span interior that accommodates a variety of performance-related accessories, including lighting trusses, light bars and a catwalk. Since opening more than 25 years ago, the venue has hosted a variety of events, including concerts, comedy shows, speaking engagements and more.

**Rollerdrome**  
**Petropavlovsk-Kamchatsky, Russia**  
**39.6 m wide x 91 m long**

Known as the Rollerdome, this 2,400-seat Sprung structure in eastern Russia has hosted a number of well-known musical acts, from Boney M and C.C. Catch to Modern Talking, Gale Force Dance, Secret Service and several popular Russian performers. The fully insulated venue was also the site for the 270th anniversary celebration of Petropavlovsk-Kamchatsky. Thanks to its superior acoustics and spacious, clear-span interior, the Rollerdome has become a premier venue for music, entertainment and special events.

**Warren Station at Keystone**  
**Keystone, Colorado**  
**80' wide x 99' long**

Built to serve as a durable, all-season entertainment venue for Keystone Resort, this fully insulated, 8,000-square-foot Sprung structure features advanced acoustics, an attractive glazing wall for optimal light, and flexible general seating to accommodate a wide variety of special events and performances. Known as the Warren Station Center for the Arts, the facility blends in well with its natural surroundings and includes an expansive outdoor patio and adjacent fire pit surrounded by thoughtful landscaping.
