Engineered & Manufactured by Sprung Structures

**Mecklenburg County**  
Charlotte North Carolina  
One 70' wide x 160' long  
Two 80' wide x 470' long

Mecklenburg County was experiencing severe overcrowding at its jail and needed to come up with a trustworthy, cost-effective and fast solution for housing its surplus inmates. After touring two correctional sites in Florida that were already using Sprung structures to house inmates, officials from Mecklenburg County were convinced that Sprung would not only meet their needs, but also deliver the structures in half the time and cost of traditional construction.

Sprung supplied three fully insulated structures: two inmate housing facilities that, together, can accommodate up to 640 inmates, and an administration building that contains offices, a visitation area, a conference room and two jail cells.

**Orleans Parish Sheriff's Department**  
New Orleans, LA  
Eight 50' wide x 110' long

After Hurricane Katrina destroyed the Orleans Parish Prison in 2005, the sheriff's department asked Sprung to provide an immediate, cost-effective solution for a temporary jail facility that could be erected within a confined parking lot area.

Sprung delivered a total of eight structures, each with capacity to house 100 inmates. Featuring clear-span interiors that allow for open sightlines and secure layouts, the structures are fully insulated, climate-controlled and equipped with sprinkler systems. In addition, the structures' power generators and HVAC units are all elevated, keeping them protected should another massive flood strike the area.

**El Paso County Community**  
El Paso, Texas  
Two 70' wide x 160' long

When officials in El Paso County recognized the need for a new detoxification facility, they chose to go with a Sprung structure due to its clear-span design, energy-efficient insulation system, and dramatically accelerated construction timeline that would bring the facility online within a five-month period.

Designed to help clients find more in-depth help when they're ready to change their lives, the El Paso County Community Detoxification Facility encompasses a number of services and amenities, including sleeping and dining areas, an assessment center, classrooms and an attorney's office for those who feel they need legal assistance.
